NEW TRIP PREVIEWS, ELEPHANTS & THE WAY

Our featured trip this month is *Hiking the Camino de Santiago - "The Way"*

For more than 1,000 years, pilgrims have traveled along the many Caminos, to Santiago de Compostela, a.k.a. *The Way of St. James* (we encourage you to watch Martin Sheen in the powerful movie, *The Way!*). From all over Europe the trails converge, with one of the oldest and best preserved being the *Via Podensis*, where our hike begins in Le Puy en Velay, France. Viewing the scallop shell all along our paths (the symbol of the Camino's myriad starting points, which all lead to Santiago de Compostela), we cross through breathtaking landscapes without the crowds, head towards the Pyrenees, and end in the idyllic medieval town of Conques. A retreat for modern *pilgrims*...and the LAST YEAR OFFERED!

Watch our **elephant video**, pay tribute to an **AdventureWomen heroine**, and cook some **lip-smackin' recipes** from Mexico and Southeast Asia.

See our first nine **2015 Trip Previews** and get on the Earlybird Lists today!

Susan F. Eckert

Did you know? The elephant is an ancient symbol of strength, protection and good luck. When it comes to the feng shui energy and symbology of the elephant, few people can object to its beauty, silent power, kindness and majesty. Even though elephants are the largest land animals living on the planet today (and one of the strongest, too), their energy feels invariably kind and very, very wise.
