You are also accompanied by an AdventureWomen Ambassador, committed to helping make your experience a fun and personally rewarding adventure, and cheering you on as you reach beyond your comfort zone to take on new challenges in your own unique way!

### Yellowstone National Park

Yellowstone National Park is in Montana, Wyoming, and Idaho, and was the first national park in the United States, established in 1872. It is known for its wildlife and geothermal activity. Its 3,468 square miles includes lakes, canyons, rivers, and mountain ranges, and it is home to hundreds of species of mammals, birds, fish, and reptiles, including the oldest and largest public bison herd in the United States.

#### Wildlife Viewing in the Lamar Valley

Head to the Lamar Valley in the northeastern part of Yellowstone National Park, where you can view wildlife with binoculars and a spotting scope, and have an overview of the local history and geology, as well as the ecology of the wolves, bison, elk, coyotes, birdlife, and other animals in Yellowstone. Enjoy a bagged lunch on the road today.

#### Hike in the Northern Range

This afternoon's hike will take you through rolling sagebrush habitat and along cold mountain streams where wildflowers abound. Look carefully as you hike and find bear, moose, and maybe even wolf tracks.

#### Horseback Riding
