You are also accompanied by an AdventureWomen Ambassador, committed to helping make your experience a fun and personally rewarding adventure, and cheering you on as you reach beyond your comfort zone to take on new challenges in your own unique way!

Big Sky

Yellowstone, the World's First National Park, was created to preserve for all time the essence of this wilderness with its fragile thermal wonders that struck awe in the hearts of early explorers, and to provide a safe habitat for its wildlife to roam. Even on the borders of the park, you'll feel how wild and immense the landscape is.

Note About Today

Your group will split in two today - half of you will fly fish in the morning and horseback ride in the afternoon, and the other half will do the reverse.

Fly Fishing Lesson

Try your hand at fly fishing in the very river that made Brad Pitt famous in *A River Runs Through It*. Receive personal instruction from your professional fly fishing guide who will help you tie your flies on, untangle your knots, perfect your cast, and even take your fish off the hook during your catch-and-release fishing lesson!

Horseback Riding

Hop on one of the loveable horses at the 320 Guest Ranch. Bring your inner cowgirl into the saddle and wind through forests, meadows of wildflowers, and along the banks of the Gallatin River.

Adventure Travel Today

At AdventureWomen, we want everyone to understand that our excursions are adventure travel vacations and not "tours." We define "adventure travel" as travel in which one **actively participates**, as opposed to a "tour," in which one is more or less a passive observer. AdventureWomen designs and organizes vacations all over the world for women who want to **experience an active, out of the ordinary vacation, and meet new friends**. Most of all, we want our trips to be **fun!**

good-natured realist and have a sense of humor! Adventure vacations, by nature, require that participants be self-sufficient, flexible, and able to accept situations as they exist, and not just as they would have preferred or expected them to exist.
